

ACTION-ITEM PROGRESS REPORT

Community Environmental Working Group

“Striving for Continuous Environmental Improvements at Intel”

Pending Action Items (includes items assigned at the previous meeting)
(numbering system refers to date initiated/number of Action Item for that meeting)

TASK	WHO	STATUS
Jessie Lawrence will follow up on the status of potential participants for a dialogue about next steps related to the Cancer Concerns Committee report.	Marc Kolman Dennis O'Mara All	Cancer Concerns Work Group report presented by Chuck Wiggins at 7.20.22 CEWG meeting. Pending further action.
Alex Lowry will get more information to answer Dennis O'Mara's question about the abatement equipment shutdown and rerouting process.	Intel (Emily Schmick)	Pending
CEWG members will communicate to Jessie Lawrence their ideas about returning to in-person meetings.	All	Issue addressed during 12/2022 Planning Meetings. Item complete 3/15/22.
2022-6-15/1 CEWG members would take individual action to reach out to organizations, etc. to recruit members.	CEWG members	Ongoing
2022-8-17/4 Marc Kolman will follow up with Chuck Wiggins about connecting with a UNM graduate student and getting a list of student organizations.	Marc Kolman	Marc contacted Chuck Wiggins on 9/6/22. Item ongoing.
2022-9-21/1 Sarah Chavez will check whether or not an Intel employee attended the September LEPC meeting and if so, get an update on what occurred during the meeting.	Sarah Chavez	Pending. Issue concerns content of the meeting in addition to who was in attendance.
2022-9-21/4 Group members will review John Bartlit's email about Purdue University and contribute any thoughts or ideas that may emerge after reading the article and listening to the fireside chat.	CEWG members	John contacted leadership at the Purdue School of Engineering (Daniels and Chang) on 10/9/22. Item complete 3/15/23.
2022-9-21/7 Intel NM CEWG members and attendees will explore the above topics (Intel Oregon's work to use ozone to treat emissions to reduce NOX; and discussion about Intel NM's commitment to further reduce emissions in light of expansion) and provide more information on Intel Oregon's efforts.	CEWG members	Item addressed in 10/19/22 CEWG meeting. Item complete 3/15/23.
2022-9-21/8 Identify potential experts to sit on a panel to discuss evolving science around low-level pollutant impact on health.	TBD	Pending. See discussion at the 3/15/23 CEWG meeting.

2022-10-19/1 The agenda team will add Intel's hazardous waste transport final location to next month's agenda.	Marc Kolman	This agenda item was not added to the March 2023 meeting agenda
2022-10-19/2 Emily Schmick will report on the final waste location	Emily Schmick	Pending
2022-10-19/3 Dennis O'Mara will inquire about whether sewage pipelines were included in the LEPC's pipeline exercise.	Dennis O'Mara	Pending
2022-10-19/3 John Bartlit will follow up with the new dean of engineering at Purdue, once that position is filled.	John Bartlit	Item complete 3/15/22. See also AI 2022-9-21/4.
2022-10-19/4 Emily Schmick will get specific particulate emission numbers for Intel Oregon and Intel New Mexico sites.	Emily Schmick	See exploreintel.com. Item complete 3/15/22.
2022-10-19/5 Marc Kolman will send a Doodle to CEWG members and Sarah Chavez and Frank Gallegos to schedule a series of online meetings in early December.	Marc Kolman	Meetings we held the week of 12/5/22. Item complete 3/15/22.
2022-10-19/6 Marc Kolman will follow up with Chuck Wiggins on whether he will be ready to present at a November meeting.	Marc Kolman	Chuck attended the 3/15/22 CEWG meeting and intends to present final report as early as May 2023. Item complete 3/15/22.
